MOTION TO ACCEPT LATE FILED COMMENTS

HDNet Entertainment LLC, a Delaware limited liability company, and HDNet Movies LLC, a Delaware limited liability company, (together, "HDNet"), by counsel, hereby request that the Federal Communications Commission (the "Commission") accept, and treat as timely filed, HDNet's comments in the above-captioned proceedings. HDNet prepared these comments for filing on November 28, 2011, but due to unforeseen technological complications related to migration to a new computer network in the last two weeks, HDNet's counsel filed a version of its comments at 12:07 am on November 29, 2011, eight minutes out of time. Grant of this motion is consistent with Commission policies and will not disadvantage any party.

Acceptance of HDNet's comments, notwithstanding the short delay in their submission, will promote the development of a complete record and will not prejudice any interested party in the proceeding. Because reply comments in this proceeding are

not due until December 28, 2011, the eight minute delay in filing of the comments will not prevent or prejudice any party from considering HDNet's comments in preparing their reply. Furthermore, because these comments are being submitted well in advance of the close of the comment period, the filing delay will not have any impact on the timing of the Commission's issuance of a final rule in these proceedings.

For clarity, HDNet is also filing separately, concurrently with this Motion, an Erratum containing a corrected copy of its comments that: moves the summary in front of the table of contents, alters the size of the type in the footnotes, and corrects minor typographical and similar errors.

As HDNet's comments were inadvertently filed late by eight minutes, we respectfully request that the Commission accept its comments as timely-filed.

Respectfully submitted,

/s/ David S. Turetsky
